

Festival Iklm 2020

CLIMATE RESILIENCE AND INCLUSIVE CITY DEVELOPMENT

20 October 2020

Background

The effectiveness of handling climate change issues and urban resilience cannot be separated from the accuracy of development planning at the city level, handling the affected sectors and providing benefits to other sectors (co-benefits), targeting vulnerable groups and risky locations, can be measured and the availability of sustainable financial support. Apart from currently becoming sector priorities in the 2020-2024 RPJMN document, it is still necessary to ensure that these issues are well mainstreamed in various sectors and targets.

CRIC (Climate Resilience and Inclusive City) is a 5 (five) year project funded by the European Union (EU) and carried out by United Cities and Local Governments Asia Pacific (UCLG ASPAC) in partnership with international development partners from Europe (ACR+, Ecolise, Pilot4Dev, Universite Gustave Eiffel) and Asia (All India Institute of Local Self-Government). The project aims at bringing efficient and sustainable impacts to the target groups to develop climate resilience and inclusive cities, which the main results will be the improvement of good governance, climate resilience, climate adaptation/mitigation and the development of early warning systems.

In partnership with Directorate General of Climate Change of MoEF, CRIC Project will support cities to determine and prepare their sustainable and resilient development plans, in particular strengthen good governance practices; speed up climate mitigation and adaptation action through a better understanding of local resources and the empowerment of people; social cohesiveness, inclusive, prosperity and innovative cities; as well as resilience and actions for the environment. CRIC will bring benefit to the city through knowledge exchange and joint trainings among local governments from Europe, South Asia (India, Nepal, Bangladesh) and Southeast Asia (Malaysia, Vietnam, Philippines, Thailand). The project fully meets the specific objectives: to improve resilience and greening of cities and urban governance, to ensure social inclusiveness of cities, and to improve prosperity and innovation in cities. CRIC has identified 10 cities as main beneficiaries, which are:

1. Pangkal Pinang,
2. Pekanbaru,
3. Bandar Lampung,
4. Cirebon,
5. Samarinda,
6. Banjarmasin,

7. Mataram,
8. Kupang,
9. Gorontalo, and
10. Ternate.

The Objective and Output

As part of the 2020 Festival Iklim series, the session will discuss the project framework and its implementation as part of efforts and contributions to the achievement of targets and national climate resilience commitments.

Date, Time and Meeting Link

20 Oktober 2020 | 13:00 – 15.00 WIB

Meeting Link :

Host : KLHK

Duration	Activity	PIC
10'	Opening	<p>Opening remarks:</p> <ul style="list-style-type: none"> • Dr. Ir. Ruandha Agung Sugardiman, M.Sc, Director General of Climate Change - MoEF • H.E Vincent Piket, EU Ambassador to Indonesia & Brunei Darussalam • Dr. Bernadia Irawati Tjandradewi, Secretary General UCLG ASPAC
75'	<p>Presentation by:</p> <ol style="list-style-type: none"> 1. Director of Climate Change Adaptation - MoEF: Sri Tantri Arundhati 2. Mayor of Gorontalo: H. Marten A. Taha, SE, MEc. Dev 3. Head of Cirebon's Regional Planning and Development Agency: Iing Daiman, S.IP., M.Si 4. Head of Division, Environmental Agency Palembang: Nyimas Ida Apriani 	<p>Moderator:</p> <p>Asih Budiati – Regional Project Manager UCLG ASPAC</p>

	5. Gustave Eiffel University: Profesor Youssef Diab 6. ACR+: Paolo Marengo	
35'	Q&A	
5'	Closing	Directorate of Climate Change Adaptation

Discussion

No	Speaker	Topic	Points
1.	Director of Climate Change Adaptation - MoEF	MoEF support to CRIC Project implementation	<ul style="list-style-type: none"> - National commitment to global climate change action - Governance and city support to national climate action - Existing climate change policies, technical guidance on vulnerabilities and risks assessment for cities
2.	Mayor of Gorontalo	City commitment and current preparation to implement CRIC Project	<ul style="list-style-type: none"> - Commitment and support from Gorontalo in CRIC Project implementation - Gorontalo city profile: characteristics, modality
3.	Head of Cirebon's Regional Planning and Development Agency	City commitment and current preparation to implement CRIC Project	<ul style="list-style-type: none"> - Commitment and support from Cirebon in CRIC Project implementation - Cirebon city profile: characteristics, modality
4.	Environmental Agency, Palembang	Experience of receiving similar technical assistance from UCLG ASPAC through the IUC Asia Project	Deliver the results of the technical assistance activities that have been carried out, in the form of mitigation and adaptation actions that have been integrated into the RPJMD (Regional Medium-Term Development Plans)
5.	ACR +	Waste management	Support from ACR+ in knowledge transfer and waste management development tool to help cities increase their climate resilience and social inclusion
6.	Gustave Eiffel University	Early warning system	Support from Gustave Eiffel University in knowledge transfer and Early Warning System development tool to help cities increase their climate resilience and social inclusion
